

Online Training Solutions

**FIRSTNET LEARNING
PARTNERS WITH LEXIPOL
TO MAKE EVERYDAY
AN ONLINE LAW ENFORCEMENT
TRAINING DAY**

March 16, 2010 - Denver, CO: FirstNet Learning is pleased to announce a new partnership with **Lexipol**, the country's leading provider of risk management resources for public safety organizations.

Lexipol is a renowned risk management company founded by experts from the law enforcement field. Lexipol currently provides risk management resources to more than 800 public safety organizations. They deliver training in five key functional areas, or 'pillars', that are known to be critical to successful public safety management: People, Policy, Training, Supervision, and Discipline. FirstNet Learning has partnered with Lexipol to deliver critical Daily Training Bulletins nationwide to law enforcement personnel in engaging, interactive, and verifiable online courses.

"Risks can be eliminated, avoided, shared, or transferred. Every identifiable risk is a manageable risk," says Lexipol Co-President Gordon Graham. "What real risk management can do is show you how to decrease the amount of money leaving an agency through lawsuits and other claims when things are done right. Additionally, true risk management can show agencies how to better protect themselves, their personnel, and their communities and training is a key pillar of reducing risk. Every day must be a training day."

FirstNet Learning (FNL) is a leader in delivering online learning solutions, helping thousands of municipalities and other organizations cost-effectively reduce risk and increase knowledge via training in areas of Health and Safety, Human Capital Management, Defensive Driving, and Business Skills. FNL is very pleased to add Lexipol Law Enforcement training to its catalog of 2,500+ online courses.

"The content requested most often by our clients has been for up-to-date law enforcement training that can be verifiably delivered. We've been searching for the right law enforcement content partner for some time. When I first heard Gordon Graham speak and learned about Lexipol, I knew I'd found the perfect partner for FirstNet Learning and for our clients," says Roy Burger, FirstNet Learning's Chairman and CEO. "No one knows risk management for public safety better than this group!"

"Knowledge renewal is required to stay abreast of the changing world of public safety. Monitoring change, interpreting the significance and translating these components into a practical application tool set is one of the greatest values Lexipol provides to clients," states Dan Merkle, CEO of Lexipol. "Partnering with FirstNet Learning will allow us to provide this valuable service to a much greater audience, reaching all across the country."

FirstNet Learning is very excited to bring Lexipol Law Enforcement training online this spring.

#####

FirstNet Learning is a leading provider of turnkey online learning, delivering innovative training solutions to thousands of municipalities, insurance risk pools, and businesses across the U.S.A. Founded in 1999, FirstNet Learning offers a variety of online learning products and services, including customer-branded universities, campuses and training centers; blended learning solutions; an extensive e-learning catalog of more than 2,500 courses; and course development, tailoring, and conversion of customer courses.

Lexipol is the *country's leading provider of risk management resources for public safety organizations*. Lexipol was founded by merging Bruce Praet's acclaimed policy manual work with Gordon Graham's innovative "Five Pillars of Success" approach to risk management. Both began their law enforcement careers in 1973. Their combined 75 years of real world experience in the areas of law, public service and business gave rise to the Lexipol system of risk management, now used by 800+ law enforcement agencies in 9 states, and growing.
