

Why Should We All Focus on Health & Safety Training?

There are about 324 million people in the USA.

In 2014, 10% -- 32 million -- ended up in the E.R. for unintentional injuries. 130,557 died.

Unintentional accidents are the 4th leading cause of death. They're the leading cause of death for ages 1 to 44.

We can't live our lives in bubble wrap. We can increase knowledge, change behaviors, reduce risk, and try our best to prevent accidents.

[Take a look at our Health & Safety Courses...](#)

Featured Online Courses:

Health & Safety, Keeping Children Safe, Cyber Security, Law Enforcement, Campus Safety & Compliance, Employment Liability

Health and Safety Courses:

WORKING OUTDOORS IN WARM WEATHER

Updated with ZIKA Virus

[Learn More](#)

What - Not When - Will Cyber Crime Cost You?

**156 million phishing emails are sent daily.
16 million get through security filters.
8 million are opened.
800,000 are clicked.
And that's just one example of cyber crime.**

Cyber Crime

CYBER SECURITY COURSES

*Cyber Security is in the news **daily**.*

While phishing remains the single biggest threat to information security, threats—and breaches—come in many forms. FirstNet is pleased to offer 13 new courses created by cyber security pros, including:

**Preventing Phishing | Privacy Awareness | Records Management
PCI Security Standards | Responsible Use of Social Media | Security Awareness**

"It is likely that your local government will not have the high profile of a large private sector organization; however, in 2015 \$9.37 Million in losses were recorded in public sector agencies across the United States due to cyber-crime." This is according to a January 2016 blog article on efficientgov.com. You can literally read about cyber crime in the news every day.

FirstNet has partnered with MediaPro to offer you a comprehensive catalog of cyber security courses that are trusted by many of the most risk-conscious organizations, such as Microsoft, Oracle, Boeing and Adobe. Check out our 13 Cyber Security Courses [Now](#).

[Contact Us](#) to demo a few courses or if you're ready to add them to your training center.
